

AIS Subcommittee Closing Brief

30 Jan 2003

AIS SUBCOMMITTEE

Goal 4: NDE / ERP

- **Goal:** Fully implement NDE and transition to ERP
- **Definition:** Full implementation would include all primary modernization data such as SHIPALT info, JCF, SAR, SID, ILS and Material and Equipment alteration data, and ship installation scheduling data (including/non-CNO availabilities), conjunctive and prerequisite ALTs and SEA 62 AMPS CCB process and Shipalt programming and execution applications.
 - NDE would be the sole official repository for above modernization data and will be linked to other programs that may need the data

AIS Subcommittee Major Conference Focus Areas

- AMPS Status and Future Plans
- PEO SHIPS NDE-NM User Perspective
- Review and Discussion of the AUTOSIR Process
- Overview of the NDE-NM Release Process
- Functionality Configuration Control Board (CCB)
- P1 Process Review and Resolution

AIS Subcommittee Major Conference Focus Areas (cont.)

- System Performance
- System Navigation Issues
- SIDE Replication
- Awaiting decisions on Policy Issues

Interface Discussions:

PRISM

CLF Extract

TAMS Forecasting

AMPS STAN

LCRS

AIS Subcommittee Major Conference Focus Areas

- NDE-NM TRAINING
 - Availability
 - Alteration
 - Material
 - 8 Training Sessions
 - 63 Attendees
 - 20 Additional scheduled for 1/31 and 2/3

System Configuration Management

- Expanded AUTOSIR Functionality
 - Increased emphasis on information being communicated
 - Automated ‘Originating User’ Notification for Validation of Requirements
 - Formalize the Process
 - Document the AUTOSIR Process
- Automated Release Process
 - Online visibility of Release Content

Functionality Configuration Control Board (CCB)

- CCB Membership
 - Sponsorship Members
 - Legacy FMPMIS
 - AIPS
 - SPAWAR
 - AMPS
 - User Rep

AIS Sub-Committee (User Group)

- Purpose
 - Collect Functional Concerns
 - Establish Priority Settings
 - Make recommendations to Sponsors
- Prerequisite
 - Good working knowledge of system

AIS Sub-Committee (User Group) (cont.)

- Members - User Group (Consensus)

CNO (N43, N6)

NAVSEA (01, 04, 06)

NAVAIR

AIS Sub-Committee Conclusions

- Advertise for broader cross-section of User Community active participation
- Utilize the Electronic “Virtual CCB” when possible to identify/resolve issues
 - Software Bugs
 - Business Rule Conflicts
 - Enhancements
- Utilize VTC and Face-to-Face Meetings as needed

AIS Subcommittee

Action Items

- Incorporate AMPS & SIDE in AUTOSIR Process
- Document and post the AUTOSIR Process
- Modify the Virtual CCB Application
- Document the Virtual CCB Process
- Develop Strawman CCB Charter Document
 - Distribute for review and comments
 - Finalize CCB Charter
- Reorganize Use Cases on NDE Website
